

Name	Rob Deakin
Ministry	Land Information New Zealand
Country	New Zealand
Mandate	Our responsibilities include managing land titles, geodetic and cadastral survey systems, topographic information, hydrographic information, managing Crown property and supporting government decision making around foreign ownership of land and assets.
Core Functions	<p>We are the National Geospatial Agency for New Zealand.</p> <p>We make sure New Zealand has accurate information about where people and places are, people have confidence in their property rights and Crown property is well managed for future generations.</p> <p>We encourage the use of location information and run New Zealand’s survey and title system, which guarantees people’s property rights. We also manage some of the government’s land and property, and support government decision making around foreign ownership.</p>
