Indonesian Planning for Hosting 9th Plenary Meeting of UN-GGIM-AP 2020

Geospatial Information Agency of Indonesia (BIG)

**UN-GGIM-AP Executive Board Meeting
3 July 2020**

Background

01

The COVID crisis has been a difficult time and the current global situation disrupts our everyday life. This was heightened with the imposition of a lockdown in dozens of countries across the world.

02

The Indonesian Government does not yet have a definite plan to open its border for foreign international arrival in November 2020

03

The Indonesian Foreign Affairs Ministry has suspended its visa exemption policy for short-stay visit, visa-on-arrival and diplomatic/service visa-free facilities for all countries

04

Accordingly, BIG is proposing 3 scenarios for hosting 9th Plenary Meeting of UN-GGIM-AP.

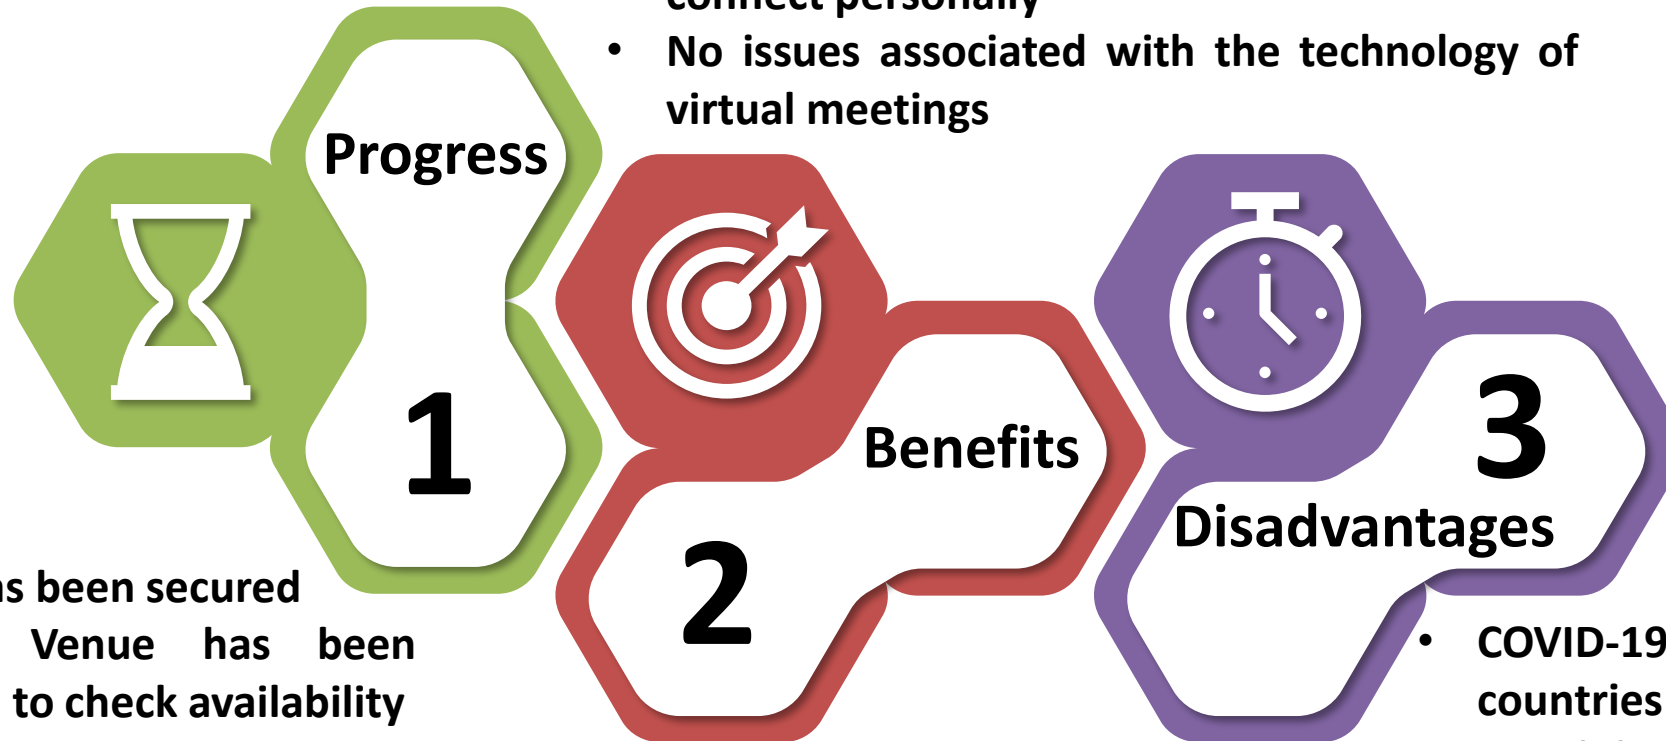

3 Scenarios for Organizing the Meeting

Scenario 1: Physical Meeting in 2020

- Face to face meetings tend to feel "clearer".
- It's much easier to build relationships and connect personally
- No issues associated with the technology of virtual meetings

- Budget has been secured
 - Potential Venue has been contacted to check availability
 - Professional conference organizer contract's has been prepared
- Uncertainty during COVID-19 Pandemic
 - Temporary travel restriction for foreign visitors to Indonesia.
 - No health protocol for large indoor gathering
 - COVID-19 status varies in member countries
 - Possibility of new policy pertaining visa application
 - Venue operation for hosting the meeting subject to stakeholder approval

Scenario 2: Virtual Meeting in 2020

Progres

- BIG has been preparing IT logistics and infrastructure to accomodate virtual meeting

Benefits

- Budget friendly
- Increased productivity and efficiency
- It allows to communicate with huge, dispersed groups

Disadvantages

- Issues associated with the technology and internet connection
- Limited interpersonal interactions

Virtual Meeting Platform

LICENSE

Maximum of 350 Users (concurrent)
 Up to 7 Parallel Sessions
 Multiple Host
 Add-on to accommodate 500 Extra Users

SECURITY

ISO 27001: Information Security
 Management System
 ISO 20000: IT Service Management

FEATURES

Video Conference & Messaging
 Network-based Recording
 Support for Windows, Mac & Linux
 Joint and Attend from Mobile Device & Web App
 Realtime & Multimedia Sharing
 File Transfer

ON-PREMISE

The Zoom On-Premise deployments, allow organizations to deploy meeting connector virtual machines within their internal company network. All meeting traffic is hosted in the organization's private cloud

HARDWARE SPECS

4 CPU Cores
 8 GB Memory
 100 GB Storage
 2 Public IP Address
 Internal IP Address Gateway & DNS
 2 Sub Domain

Scenario 3: Virtual Meeting in 2020 and Physical Meeting in 2021*

Progress

Budget has been proposed for next year event, subject to review and approval. BIG has been preparing for virtual meeting

Benefit

Plenty of time to make preparation for physical meeting

Disadvantage

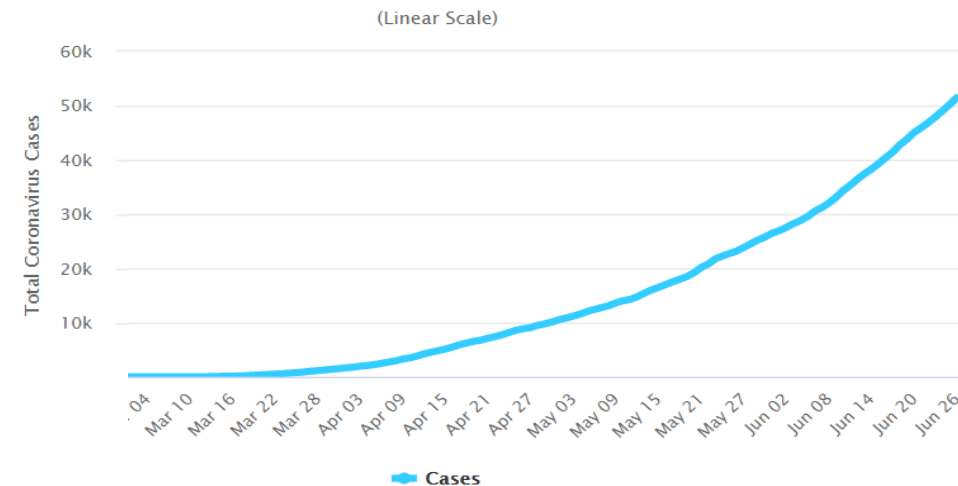

Budget need to be secured, it will be finalized in November/December 2020

* Assuming that large indoor gathering and international travel would have returned to normal in 2021

COVID-19 Update in Indonesia

- The government has loosen social restrictions under the so-called “new normal” policy since early June.
- It has now entered a transition phase in which gradually ease restrictions on several sectors.
- Foreigners excluded from travel restriction are required to undergo a compulsory 14 days quarantine upon arrival.
- People's movements from one region to another within the country has been resumed.
- However, the daily new cases also continue to rise in many parts of Indonesia

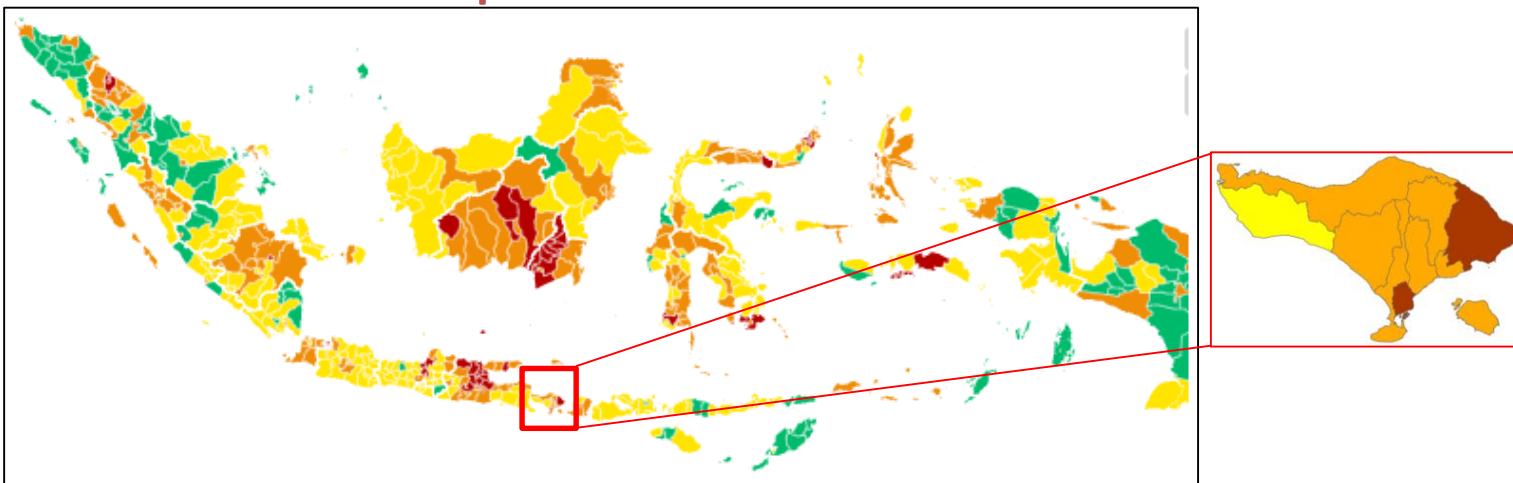

Total Cases
